Our product range

Oz Tuff Green

Oz Tuff Green is a green couch variety developed by Oz Tuff Turf on their farm in Central Queensland. With its unique characteristics, Oz Tuff Green* was awarded Plant Breeders Rights (PBR), ensuring exclusive commercial rights.

Oz Tuff Green displays characteristics ideal for Australian conditions. They include:

- ✓ Highest salt tolerance of any green couch variety
- ✓ Tolerates the use of recycled water
- ✓ Low nutritional requirements saving time and money
- ✓ Easy to keep tidy and weed free
- ✓ Finer leaf results in less water evaporation
- ✓ Low growing means less mowing
- ✓ Stays greener longer and
- ✓ Recovers quickly from stressful conditions such as drought and high traffic.

With trials currently underway in Australia and the USA, licenses to grow and distribute Oz Tuff Green are being allocated to turf producers nationally and internationally.

Sir Walter Soft Buffalo

Born and bred under Australian conditions, Sir Walter is a PBR soft leaf buffalo grass ideal for domestic and commercial lawns throughout Australia. Sir Walter's characteristics include:

- ✓ Proven shade tolerance makes it ideal for shady areas
- ✓ Drought tolerant in summer
- ✓ Handles the wear and tear of children and dogs brilliantly
- ✓ Maintains good cover even through the winter months.

Plateau

A hardy, cost saving, low maintenance Australian developed PBR couch with unique characteristics:

- ✓ Lateral growth for reduced mowing frequency
- ✓ Best shade tolerance of any couch variety
- ✓ Deep rich green colour
- ✓ Reduced maintenance leads to cost savings.

Velvetene

Velvetene is a Plant Breeders Rights registered variety of sea-shore paspalum (*paspalum vaginatum*), which has a similar texture and density to that of the finer green couch species. The leaf has a wax coating giving the appearance of glistening bright green, shiny lustre with a velvet soft touch.

- ✓ Good salt tolerance, tolerating recycled water
- ✓ Grows well in a wide variety of soil types and ph levels.

Greenlees Park and Wintergreen Couch

With over 20 years in the market, these budget green couch varieties are chosen for sunny outdoor areas in domestic/commercial landscapes and streetscapes, parkland areas and sporting surfaces. Characteristics include:

- ✓ Tolerance of a wide range of soils and environments
- ✓ Good wear tolerance.

Professional Fertilisers

Oz Tuff Turf offers their customers access to the same range of controlled release nitrogen (CRN) fertilisers used by professional turf producers and managers. The range of CRN fertilisers offered ensures there is a product that suits all environments and turf types.

These CRN fertiliser blends help maintain a consistent growth habit for up to twelve weeks, reducing mowing frequency, clippings and potential pest problems. Features include:

- ✓ Controlled and more uniform nutrient release maximises turf health for up to 12 weeks
- ✓ Minimal fertiliser losses due to leaching
- ✓ Easy to handle and apply
- ✓ All trace elements required to sustain healthy turf growth.

Oz Tuff Turf also offers a fertiliser coated with a pre-emergent herbicide that will safely control grass weeds from emerging whilst your turf gets established. We also have fertiliser spreaders to help you fertilise your turf professionally.

*Oz Tuff Green, marketed under the Oz Tuff Trademark, is the PBR Variety OZ-E-Green.
